

**Crime, Safety, Transportation and Noise committee
Walker Heath Services 3737 Bryant Ave S
February 4, 2013, Minutes**

Attendees: Stephen Rueff, Jean Swenson, Melissa Gould, Brian Forney

Agenda:

Airport noise update and forum:

- Updates were given as to the founding of SWAAT, where we are now and future plans.
 - Communication provided through various neighborhood communication vehicles - facebook website and eNews.
 - A dedicated facebook page has been set up to keep Southwest Mpls residents informed and engaged. Go to MSP Airport Citizen Council and “like” to receive updates.
- Input gathered from the attendees:
 - Try and gather a better timeline of implementation from MAC. The current plan is to have a study and then partial implementation of RNAV in June, 2014.
 - Engage nonprofit stake holders, e.g. Audubon, Sierra club etc. for their support.
 - Delta is currently using its older, louder fleet for most of its flights into and out of the airport. The suggestion is to have them put more of their newer planes into the mix.
- The next SWAAT meeting is February 25th, 7:00 PM, Lynhurst park.
- Updates will be provides as Kevin receives them.

46th Street Construction/Bike lanes

- Stephen Rueff spoke on the 46th Street Redesign project. He will be providing a summary to Kevin.
