

East Harriet Farmstead Neighborhood
Crime, Safety, Transportation and Noise Committee
August 16, 2010 Meeting

Attendees: Jack Kelly, Amy Lavender, Matt Perry, Roger Worm, Kevin Larson.

Agenda:

Courtwatch: Impact statements are needed for several individuals. Impact statements impress upon the courts the emotional as well as actual damage that these individuals cause to society. Impact statements go a long way towards the convicted longer sentences. An updated list of impact statement requests, as well as a form can be found on the link at the East Harriet website.

National Night Out: East Harriet was well represented with 19 blocks registered for NNO. There were also several blocks that participated, whom did not register. Next year's NNO will try to increase participation on the Lyndale and Bryant Avenues. These blocks cannot have their blocks closed, but can still participate. The objective for NNO is to get to know your neighbor. In doing so, you get to know the people who should not be on your block.

There was no new business.
